CONVENTION CHEERS NAME

Principles, Once Considered Anarchistic, Now the Acme of Patriotism, Folk Says.

JEFFERSON CITY, MO., June 5.—
What is generally regarded as the most significant feature of the Demogration State Convention, held here to-day, was the pointed and absolute endorsement of Wm. Jennings Bryan for the Presidnecy in 1903, by David R. Fracis, of St. Louis, former Governor and Secretary of the Interior in President Cleveland's cabinet. Former Governor Francis was invited to address the convention. He said in part: "I wish to ask this convention to send its congratulations to the mitional Demogracy on the disappearance of our differences. There are no difference between us now. In 1904 what is known as the conservative element of our party asked that it be allowed to make the platform and name the candidate. Right platform and name the candidate. Right liberally did the radical faction concede the honor to the conservative element, You know the result. Now another cam-

paign is approaching. Those of us who belong to what has been the conservative faction would not lie magnanimous, worthy Democrats if we did not say to you that we will support your candidate and your platform this time. The differences that have divided the Democracy exist no longer."

Governor Francis described Bryan as "a sincere lover or humanity and a patriotic citizen of the United States." He eulogized both Bryan and Cleveland, aimid wild cheering.

"Governor Folk also spoke, declaring that Bryan would be nominated for President in 1908 and would be elected. He said the principles which Bryan had avocated in 1898 were then considered anarchistic, but now are considered meme of patriotism. Former Governor Dockery spoke in a similar vein.

The nominations made by the convention were Reuben Oglesby, of Warrensburg, for railroad and warehouse commissioner, and H. A. Gass, of Jefferson City, for superintendent of public schools.

May Declare for Bryan.

(By Associated Press.)
INDIANAPOLIS, IND., June 5.—That unugual interest is being taken in the Indiana Democratic convention, which convenes here Thursday, is shown by the early arrival of a large number of the leaders. the leaders.

An enroest effort will be made by the

riends of William J. Bryan to have the convention declare in his favor, and it is freely asserted by the advance guard that this action will be taken. Bryan sentiment was outspoken among the delegates to-night.

DEMOCRATS IN UPROAR Presiding Officer Lost Control

of Arkansas Convention.

of Arkansas Convention.

(By Associated Press.)

HOT SPRINGS, ARK., Juye 5.—The Democratic State Convention convened to-day and after a stormy session effected only a temporary organization, with Judge J. W. Evans, of Booneville, chairman and Hugh Corey, of Texarkana, secretary.

For two hours during the afternoon pandemonlum reigned, and the presiding officer lost entire control of the convention. A semblance of peace was brought about by Congressman McRae, and adjournment until to-morrow followed. What was supposed would result in a test vote of the strength of Governor Davis and Senator Berry to-day developed into nothing more than a test of the strength of John 3. Little, who will be the nominee for Governor.

INSURGENTS CONTROL.

Republican State Convention of South Dakota in Session.

SIOUN RALLS S. D. June 5 .- Owing o delay in the report of the Committee for the transaction of business.

The so-called insurgent Republicans Frank McNuity, of Roberts county, was chosen permanent chairman. The first direct test of strength between the two direct test of strength between the two elements in the convention came on the question of endorsing a candidate for United States senator. United States Senator Gamble was proposed by the "in-surgents." while the "stalwarts" named Congressman B. W. Martin, of Deadwood. The vote resulted: Gamble, 901; Martin.

RATE HEARING HAS COMMENCED

(Continued From First Page.) ville and could not be here for some

ville and could not be here for some days.

The commission, through its chairman, Judge Bev. T. Crump, then announced the following order in which the railroads will be heard: Southern, Norfork and Western, Chesapeaka and Ohio, Seabard, Air Line, Baitimore and Ohio, Norfolk and Southern, New York, Philadelphia and Norfolk, Louisville and Nashville, Virginia and Southwestern and Atlantic Coast Line.

The case of the Southern was gone into after about an hour's wrangle between Messrs, Bratton and Thom as to the mode of procedure. Mr. Thom made application for the hearing of the State's evidence first, and this was carrestly opposed by Mr. Brax'en, Mr. Thom said the State should take the intistive so that the companies might have the benefit of the former's contentions, and be in possession of the reasons upon which the proposed rate regulation is founded.

"The State has siready taken the intistiva," replied Mr. Braxton," formulationical.

ing and furnishing the railroads with a tentative scheme of regulation. It is now up to the roads in answer to this rule, to show cause, if any they can, why these rates should not be promulgated. If the companies come here and sit dumb, then I take it the rates ascertained will stand."

Mr. Thom Replies.

Mr. Thom replied at some length.
"The commission," he said, "is confronted with the fact that the present years, and before the principle upon which the railroad has long been conmission should give their reasons for the particular schedule proposed."

mission should give their reasons for the particular schedule proposed."

After soveral speeches by both the attorneys, in which they discussed the procedure under a rule of a count, and many other legal points, Judge Crump ruled that the companies must submit their evidence first.

"Allow me." said Mr. Thom, "to enter objections and exceptions to the ruling made by your honor.

"We are put at a disadvantage in not having the boneft of the reasons upon which these schedules are based."

The commission is not only exercising legislative and judicial powers at the same time, but is complathant before itself in the matter to be determined."

Mr. Thom offered a number of papers in evidence, to most of which Mr. Braxton objected, but they were admitted.

Constitution Offered. Constitution Offered.

He first offered the Constitution of Vivginia, and then various sections of the Code relating for the most part to the Southern Railway Company. A certified copy of the charter of the company and acts of consolidation were offered and admitted.

He also offered the records before the

acts of consolidation were offered and admitted.

He also offered the records before the commission in the uniform classification and single slipment cases, and copies of the Churchman two-cent rate bill and the Booker two-cent flat rate resolution.

At 1:20 P. M. Mr. Thom put on his first witness. He was Comptroller J. W. Coxe, of the Norfolk and Western. Questioned by Mr. Thom, witness said he had made some divestigation into milrond statistics in the State, and he declared he had found the total mileage in Virginia, as shown by the propert of the Corporation Commission, was about 2,846. Witness was asked for statistics as to what railroads had been reorganized or in receivers hands since 1876, but Mr. Braxton objected.

He said what their former misfortunes had done, and what their former misfortunes had one could have no bearing upon the questions at issue.

Mr. Thom graued at some length in favor of admitting the testimony.

Thought It Relevant. He asked if he could show that 3,247 put of 3,846 miles of railroad in Virginia and falled to prosper, and gotten into

out of 3,846 miles of ruliroad in Virginia had failed to prosper, and gotten into receivers hands since 187, under a higher freight-gate than that now in vogue, whether this would not be considered relevant to the issue.

Mr. Braxton replied, and said he could not imagine that the testimony referred to could have any bearing upon the question. He thought if all the roads in Virginia has been in receivers' nands up to a few years ago, and were now in good condition, these facts 'had nothing to do with the matter.

Mr. Thom followed briefly and declared that the question now under advisement

said, "shuts out one of the greatest that can possibly shed information upor present conditions." The testimony was admitted, and the

The testimony was admitted, and the witness proceeded.

He had not gone far, however, when the commission at 2 P. M. took a recess until 3:39 o'clock.

Upon resuming at the latter hour, Mr. Coxe again took the stand.

Here is the statistical testimony given by the witness on his examination in chief:

In Receiver's Hands

In Receiver's Hands.

Cross-Examined.

Mr. Braxton now took the witness and cross-examined him at some length, "Where ald you get the information on the table submitted?" he asked.

Ans. "Partly from the 1904 report of the Corporation Commission and partly from Poore's Manual."

"The list of reads and milence come. "The list of roads and mileage come The list of roads and mileage come from the report, and the data as to receiverships from Poore's Manual."

Mr. Braxton moved to strike from the record all the testimony based on Poore's Manual on the ground that it was breat-

record all the testimony based on Foores Manual on the ground that it was frear-say and not legal evidence.

The motion was not passed on for the present, and witness proceeded.

"Is it not a fact," aked the lawyer, "that nearly all the eleven roads clied as not paying operating expenses are mere tram roads, depeated by other companies?"

Witness thought the Strasburg and Winchester, the Lick Creek and Lake Earle and the Surry, Sussex and South-ampton were preity substantial roads. Witness was examined as to nearly all the eleven lines specifically, but he could not say who controlled them or whether or not they were all independent lines. In answer to a question by Mr. Thom witness said Poore's Manual was recognized as authority in railroad and financial matters.

Again with Mr. Braxton, witness de-

STEVENS FAVORS

the best.

Large Number of Laborers From Abroad.

(By Associated Press.)

WASHINGTON, D. C., June 5 .- The

Foreign Commerce to-day heard Chief Engineer Stevens, of the Isthmian Canal Commission, regarding engineering problems on the Isthmian of Panama.

Mr. Stevens gave in detail the reasons of his conversion from a sea level advocate to a lock canal enthusiast. He said the popular impression of a sea level canal was that when it was constructed a person could stand at one end of it and look along the surface of the canal from ocean to come a sea level canal was that when it was constructed a person could stand at one end of it and look along the surface of the canal from ocean to coan. As a matter of fact, if the sea level type of canan should be built, he said; it would be more in the nature of a "sewer." It would be a narrow chained deep down in parrow canons; it would have as trong current, and in his oglided ghere would be no way to divert the torrents of the Chagres River, or, at least, this question was the one engineering problem on the Isthmus which far overtopped the others. This river, if turned into a sea level canal, he believed, would render it non-paying the left if the or completely destroy it. Engineer Stevens, of the Isthmian Canal

Wants lyore Laborers,
Mr. Stevens explained in detail what
is known as the 85-foot level type of
canal. This contemplates building a dam at Gatun on the Atlantic side and La boca on the Pacific side, backing up the waters of the two watersheds and thus avoiding digging or dredging for a total of twenty-eight miles of the distance. This type of canal could be built in eight

This type of canal count be barned by ears.

Mr. Stevens has never been satisfied with labor conditions on the Istimus. He would have three or four nationalities there. He would like to have some Chinese, but supposed this would require legislation. He now has an agent it Madrid endeavoring to get Spanish labor ers. His present labor roll amounts to 20,000 names, and the maximum requires a stimuted at between 20,000 and 55,000. is estimated at between 20,000 and 35,00

There are no laborers there from the United States. CANFIELD MUST PAY

MONEY TO DELAHUNTY (By Associated Press.) Besides renoviting the plumbling, the packing companies put up a variety of signs all over the plants enjoining clean-liness.

The foremen were told that the rule against expectorating must be enforced or discharge would result. Another new rule posted conspicuously that forbidding the use of tolacco in all food-producing the use of tolacco in all food-producing tooms.

London Stops Eating.

Blance (By Associated Press.)

**NEW YORK, June 5.—With a verdict of \$55,000, the full anhount claimed, the sait of John Delahunty against Pichard A. Canfield for legal services growing or the three raid on the latter's gambling house by District Attorney Jerome, in February 1904, was brought to meet a deducted \$5,000 which Delahunty is to be deducted \$5,000 which Delahunty producting the net amount of the award \$15,000. Permission was given to appeal for a Permission was given to appeal for a new trial within sixty days.

THE WEATHER.

Forecast: Virginia-Thunder showers Wednesday and probably Thursday; light to fresh southwest winds. North Carolina-Tilunder showers Wednesday and probably Thursday; south to southwest winds.

Conditions Yesterday. Richmond's weather was clear and varm. Range of the thermometer:

Lowest temperature yesterday...... Mean temperature yesterday...... Normal temperature for June..... Departure from normal temperature.... Conditions in Important Cities.

Highest temperature yesterday.
